

Mae Jemison Model Collage

Consider sharing with students the following details that helped with selecting images for the collage:

1. Mae Jemison was the first Black American woman to go into space in 1992.
2. Jemison rode on the space shuttle *Endeavour* in 1992, which orbited Earth for eight days.
3. Jemison studied science, became a doctor, and joined NASA as an astronaut in 1987.
4. Jemison conducted science experiments aboard the Spacelab during the mission.
5. After retiring from NASA in 1993, she started a science company and a science camp for teens.
