

Socratic Dialogue: Thinking About Environmentalism

Instructions: Read the Environmentalism article, and then answer the questions in preparation for the Socratic seminar.

1. What responsibilities do humans have toward the environment?

2. How do the anthropocentric and biocentric schools of thought compare and contrast?

Name:

Date:

3. Which approach do you agree with, and why?

4. What are examples of environmental movements in the United States?

5. What are examples of environmental laws, and what do they promote?
