

Mini Biography Book

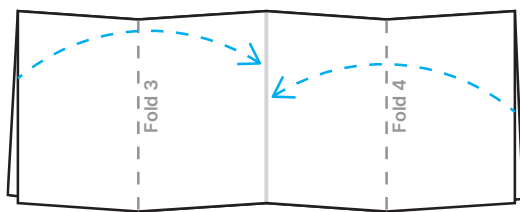

Instructions: Create an eight-page booklet by following the steps below. Then use this booklet to write and illustrate Sarah Winnemucca's biography.

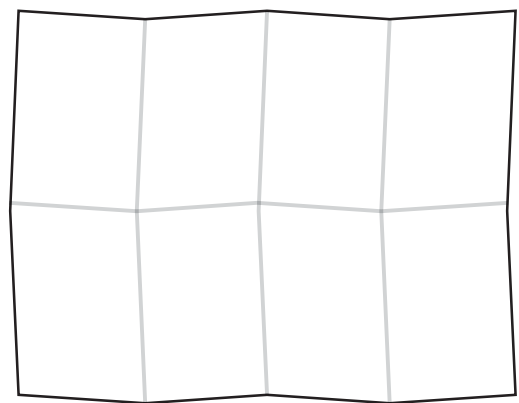

Step 1: Hold a sheet of paper horizontally and fold in half from top to bottom.

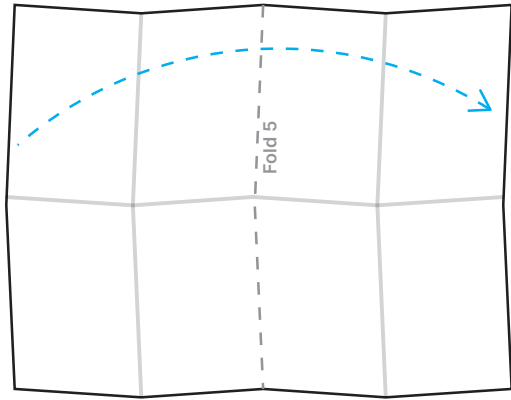

Step 2: From left to right, fold in half again.

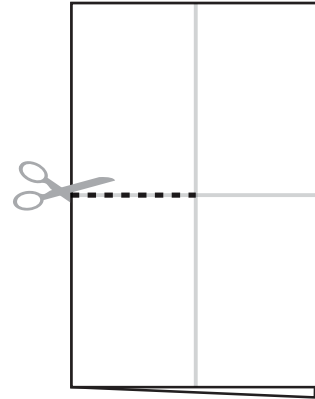

Step 3: Unfold step 2. Fold left edge to middle crease. Fold right edge to middle crease.

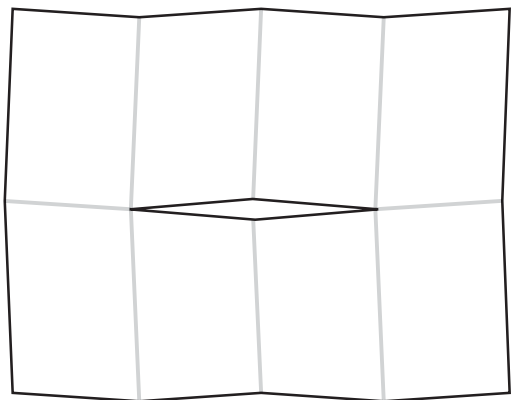

Step 4: Unfold everything so the creases show eight sections.

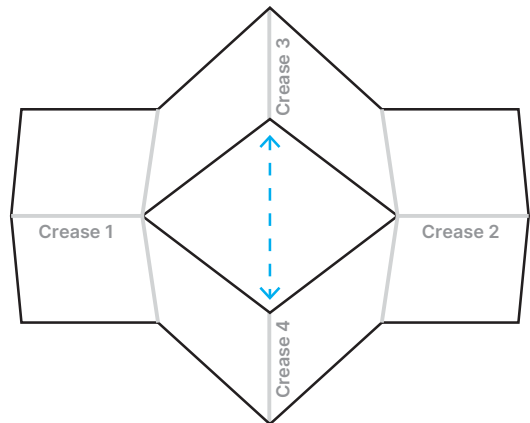

Step 5: From left to right, fold in half once again.

Step 6: From the closed edge on left, cut along middle crease to the first vertical crease.

Step 7: Unfold everything again, revealing hole in the middle of the paper.

Step 8: Lay paper flat on table. Lift creases 1 and 2 upward while pulling creases 3 and 4 apart from each other. When all panels are flat and touching you will end up with a cross shape that will easily collapse into an eight-page booklet.
